Hampton continues repairing potholes

March 26, 2015 – Spring is here but signs of winter are still visible, and Public Works continues to make repairing potholes a priority throughout Hampton. Since March 16, more than 753 potholes have been repaired on city streets and roads.

Paul Richardson, superintendent of bridge and street operations for Hampton, said repair crews go out daily, with priority given to potholes that are 12x12x2 inches deep or larger.

To report a pothole, contact the Customer Call Center at 3-1-1 (727-8311 from a cell phone or from outside the city) between 7 a.m. and 11 p.m. 7 days a week. Give the person who answers your call the location, size and depth (if possible) of the pothole, and tell them whether the road is concrete or asphalt. (See repair photo below)
